I am an accomplished software engineering manager who has led successful development teams and delivered high-quality software solutions. With over 5 years of additional proven development experience, I have a track record of managing large-scale projects, building robust teams, and implementing agile development processes. I possess a thorough understanding of software design and architecture principles and am passionate about driving innovation and continuous improvement. I possess strong technical skills and am adept at communicating effectively with both technical and non-technical stakeholders.

EXPERIENCES

INCODEKS - Pristina, Kosovo

July 2020 - Present, Software Engineering Manager

In my role as a software engineering manager within an agile scrum team, I prioritize the team's adherence to agile processes and principles, while also promoting risk-taking, experimentation, and innovation among team members. Additionally, I oversee and guide the software engineering team through design, development, testing, and deployment activities, ensuring that they follow best practices and produce dependable, high-quality software products.

Sallyport Global – Balad Air Base

Nov 2016 - Nov 2019, Senior IT Technician

This project involves the delivery of 32 F16 Falcon Fighter Jets to Iraq through a Foreign Military Sales (FMS) agreement with the US government. Providing Base Life Support Services for around 3500 individuals, with clients including the IqAF, USG COR, Lockheed Martin, and Northrop Grumman.

As part of this project, my responsibilities include developing and maintaining web-based applications that utilize front-end and back-end programming technologies, such as Laravel, PHP, MySQL, HTML5, CSS3, JavaScript, and jQuery.

Lingner Online GmbH - Fürth, Nuremberg

May 2016 - Dec 2016, Senior Web Developer

Full-time Lead Web Developer with a focus on front and back-end programming technologies: HTML5, CSS3, JavaScript, PHP, Laravel, WordPress, Joomla, Git, MacOS.

ABK Media Group GmbH – Bad Ragaz, Switzerland

March 2015 - May 2016, Software Engineer

Web application developer and a Team Leader with a focus on front and back-end programming technologies: HTML5, CSS3, JavaScript, PHP, Laravel, Git, CentOS, Linux, Laravel.
